

I-496 Reconstruction

Delta and Lansing Townships, Eaton and Ingham Counties

April - November 2020

What Is Being Done?

The Michigan Department of Transportation (MDOT) is investing approximately \$60 million to improve I-496 between I-96 and Lansing Road. Work will include reconstructing the freeway and ramps, preventive maintenance on all the bridges in the project area, and making operational improvements to the entrance and exit ramps at the I-96, Creyts Road, and Waverly Road interchanges.

MDOT is partnering with the Ingham County Road Department, Delta Township and Lansing Township to reconstruct Waverly Road between Lansing Road and St. Joseph Highway.

How Will Traffic Be Affected?

Work will be done one direction at a time, with eastbound I-496 closed for construction first. Traffic will be detoured along Lansing Road from I-96 to I-496. Bridge work will require short-term closures of detours of local roads. Alternate routes are advised.

When Will This Be Done?

Work is expected to begin in April with I-496 reopened to traffic by November.
